# Gateway

GWY-01

Gateway connects the user's Plejd mesh with the Internet, allowing control of the Plejd system regardless of where the user is situated.

- Enables remote control.
- Maintains time functions in the event of power outages.
- Enables vacation mode.
- Connects via power adapter to wall sockets and via Ethernet to a local network.
- Becomes part of the existing mesh network when installed in the Plejd app.
- Enables integration with third-party systems, such as Google Home, Apple HomeKit®, Alexa and Homey.

Works with **Apple HomeKit**

works with **Google** Home

works with **alexa**

Talks with **Homey**
